Copy of the Secy's note dated 17-4-50 on file No. 2356/48, regarding suggestions made by M.L.As.

Discussed with H.M.

No. action needed on Bombay No.1 (~~xxxxx~~ I cannot be accepted) S. No. 2,3 and 4.

Please 5- We may find out if loans under the Agrl. loans Act (Not land improvemet Act) could be advanced to ~~kxix~~ khaṭedaṛs for purpose of paying their shore of popular Contribution.

S.N.N. 6:- Not ~~exexkxixx~~ execluded. K Through Engout such cases ~~xfxpxpxixx~~ would be rare. No action.

S.N. & 7- No action.

S.N. 8 Priges-Scheme to be formulated. Pl; put a note separately.

S.No. 9:- This is covered by the instructions to form Dist. Exedtive Committee of collr. President D. &B. secy; two popular represatitives & Ex. engr. as secy. Draft A

The Press note under preparation by C.E. covered the points re: prizes & executive committee.

Separate action be taken to issue formal official orders about there points covered by Press Note which require such orders (press notes are not official orders).

Press Note.

The Bombay State is deficient in the food grain supply to the extent of 800,000 tons every year. To bridge this gap between production and consumption to an appreciable extent, until out Major Irrigation Works are completed the Minor Irrigation Works offer as the best short term solution. The Government of Bombay have, in furtherance of their policy of Grow More Food drawn up an intensive programme of carrying out repairs to existing Minor Irrigation Works and construction of new works where feasible. A loan of Rs. 1 crore has bee made available by the Government of India in two instalments during 1950-1951.

2. There are a large number of Minor Irrigation Works of various sizes, some of which are fairly large in size. Most of the works are in need of repairs. There are possibilities that new works like masonry bandharas across streams, new tanks, drains could also be carried out cheaply and in a short period, if co-operation of the local workers and villagers could be secured in an effective manner.

3. One of the conditions of the loan is that work should be undertaken in such cases, where the villagers or the beneficiaries of the scheme come forward to make a contribution in cash towards the cost of the scheme. The popular contribution has been fixed at 1/4th the cost in the case of repairs to tanks or construction of new tanks, and 1/3rd the cost in the case of bandhara. The contribution is levied only with a view to make the villager feel that he is also a parther in this great work of restoration of the minor irrigation works. In certain backward areas, Government may consider the question of a reduction in the popular contribution.

4. This loan is a debt whose interest will have to be

met.....

met from the general recenues of the State. It is, therefore, only natural that the loan should be spent only in such compact areas where the cost of the work is lowest to Government due to small overhead charges and what is more important, where the largest yield in food crop could be assured.

5. Cultivators can help Government by coming forward in large numbers, to carry out these works at less than the scheduled rates so that the cash contribution also becomes less and Government is also enabled to carry out a larger programme with the limited funds at its disposal. Government have decided to appoint in each District an executive committee with the Collector as Chairman and the Executive Engineer as the Secretary, and with the President, District Local Board, the Secretary District Rural Development Board, the District Agricultural Officer as members The Committee so formed will co-opt two influential representatives of the District, or ifso desired of a division or of Taluka in case of a large number of tanks or bandharas in the different parts of the District. The Committee so formed will to draw up a programme of works and arrange their priority and fix up the agency for execution. The Superintending Engineer of the Circle will be an Ex-officio member of the Committee and would advise the Committee regarding the works to be undertaken.

6. For fixing up the agency for execution of works first preference should be given to District Local Boards, who would be allowed 12/2 percent as agency charges inclusive of tools and plants; then social workers through the villagers and then contractors and other agencies as may be found suitable.

7.....

7. The Government of Bombay would, therefore appeal to all to co-operate with the Government in implementing this programme and make it a complete sucess and thus help Government in solving the problem of food shortage.

I.B.(I). 2356/48.

P. W. Deptt.

The action is called for on the following 2 points:-

i) Prizes.

ii) Formation of Dt. Executive Committees.

2. Point (i):- When the programme of Minor Irrigation Works for the years 1950-51 & 51-52 to be financed from the loan of Rs. 1 crore was dicussed by the H.M.,P.W.D. in the Council hall all agreed to the proposal made by him that the prizesimay be announeed for the largest compact areas being brought under the scheme with shortest time and smallest expdre of Money. Before drawing up a scheme with regard to this point following points need consideration.-

i) No. of Prizes.

ii) Amount of each prize.

iii) From what source this expdre. should be met,

iv) Who should decide as to which villages are entitled for prizes.

As regards above points it is suggested that the Nox. of prizes may be 3, that is the first 3 villages where largest compact areas will be brought under the scheme with shortest time and smallest expdre, may be given prizes. The amounts of each prize may be as follows :-

1st prize Rs. 1000

2nd prize Rs. 500

3rd prize Rs. 250

This expdre may be met from the loan amount itself. The Dt. Executive Committees which are now being formed will submit the necy. information to Govt. xx so as to enable the Govt. to declare the prizes, when the reports are recd. after the end of March 1952 i.e. after the completion of the programme, a meeting of the S.Es may be called for and at the meeting the prizes may bedeclared. The Dt. Executive Committees will have

to.....

6

to keep these points before them viz (1) largest area brought under irrigation by the villages by the M.I. Works (ii) time and (iii) expdre. on such work in the perticular area. A reference to the A.& F.D. & F.D. will however be necy. orders are solicited.

Points (ii):- Necy. draft is put up for appl.

Id/-
19-4-50.

In opinion we may first obtain the remarks of the S.E.s (who may consult the Collectors) as to what the prizes should be, what area is to be considered as a unit for this purpose and what should be the standards to judge the efforts of the different groups in the unit, in a comparative way.

Id/-
20-4-50.

mx

Id/-
20-4-50.

The remarks of S.Es. may be obtained, an indication may be given to them that there may be say 5 prizes for the whole state, of Rs. 2500. 2000, 1500, 1000 and 500 to be awarded to work must have been recd. popular contribution & that reserve the larger increase in food production extends 500 B-mds. of foodgrain.
